Bump-In procedure

Due to recent developments in the King George Square construction, the forecourt and KGS carpark are no longer available to unload vehicles. We have arranged for the City Hall back loading dock and the old Council building basement car park to be available for exhibitor bump in and out. Following are the details for each loading bay. Please nominate the loading bay that best suits your needs by completing and returning the form on the next page. Please note that the old Council building basement car park is a loading and unloading area only. Once unloaded, vehicles must be moved to a public car park (e.g. Myer Centre Car Park, Transit Centre Car Park or Queens Plaza Car Park).
